Shining as we learn in
Faith, Family and Friendship!

ART CURRICULUM OVERVIEW

ART & DESIGN STATEMENT OF INTENT

At St William's we believe that Art and Design should provide children with the opportunities to develop their imagination and creativity, and extend skills, thoughts and ideas. Our high-quality art and design education engages, inspires and challenges pupils. It equips them with knowledge and skills to experiment, invent and create their own authentic works of art, As pupils progress, they should be able to articulate their thoughts, think critically and develop a more rigorous understanding of art and design. They should know how traditional, modern and contemporary artists reflect and shape our history, and contribute to the culture, creativity and wealth of our nation.

THE GOLDEN THREADS OF EYFS

The children use brushes, rollers and scissors to make pictures and build things

They use a variety of methods and media including printing, collage, painting and drawing to make their own pictures

They explore and interpret the work of a variety of artists.

They explore colour and colour-mixing.

They used and refine a variety of artistic effects to express their ideas and feelings

They create art work collaboratively and share ideas, resources and skills
